

**IF YOU'RE NOT  
LEAD-SAFE CERTIFIED,  
DISTURBING  
JUST SIX  
SQUARE FEET  
COULD COST YOU  
BIG TIME.**

## BECOME LEAD-SAFE CERTIFIED NOW.

Any contractor, from plumbers to electricians to painters, who disturbs lead paint while working in a pre-1978 home, school or day care center now must be Lead-Safe Certified. If you're not, you can face thousands of dollars in fines. Plus, you put the health of yourself, your workers and your customers at risk, which could result in lawsuits.

Visit [epa.gov/getleadSAFE](http://epa.gov/getleadSAFE) to learn about the dangers of lead paint poisoning and the precautions you can take against it. You'll also find an EPA-accredited trainer in your area where you can be certified. One class certifies you for five years. It's that easy.
